## Technical Skills

---

**Frontend:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS  
**Backend:** Node.js, Express.js, API Development, REST APIs, Socket.io  
**Database & ORM:** PostgreSQL, MongoDB, MySQL, Prisma, NeonDB, Supabase  
**App Development:** React Native, Expo  
**Authentication & Deployment:** Clerk, Firebase, Appwrite, Vercel  
**Database Designing:** Database Architecture, Prisma ORM  
**Version Control & Tools:** Git, GitHub

## Experience

---

### Freelance Project – The Vaultt Store [\[link\]](#)

July 2025

Full Stack Developer

Remote

- Constructed a comprehensive e-commerce website, complete with a personalized administrative console; facilitated a 30% increase in average order value through enhanced product presentation and user experience design.
- Integrated Razorpay payment gateway, enabling secure and frictionless online transactions that improved checkout success rates by 25%.
- Implemented automated email workflows for order confirmations, shipping updates, and promotional campaigns, boosting customer retention and repeat purchases by 15%.

### Freelance Project – Jamuna Foundation [\[link\]](#)

June 2025

Full Stack Developer

Remote

- Engineered and deployed the official Jamuna Foundation website, significantly enhancing their online visibility and enabling 40% more user engagement through an improved UI/UX.
- Orchestrated the creation of a centralized internship portal featuring automated application routing, approval workflows, and real-time tracking; reduced administrative processing time by 60% and saved 15+ hours weekly.
- Implemented automation pipelines for repetitive operational tasks, minimizing manual interventions and increasing overall process efficiency by 35%.

## Projects - [\[portfolio\]](#)

---

### PhedTanker | *Next.js, TypeScript, Prisma, PostgreSQL, Clerk, React Native* | [\[link\]](#)

March 2025

- Designed a district-wise role-based dashboard for contractors, SE, XEN, AEN, JEN, and vendors, streamlining access control and improving operational transparency.
- Engineered a real-time vehicle tracking system with React Native and Node.js, enabling monitoring of 500+ vehicles and reducing late deliveries by 15%.
- Architected a secure, scalable database schema for hierarchical roles and integrated REST APIs for OTP verification, reducing authentication failures by 30%.
- Enhanced performance to achieve a Lighthouse score of 99, ensuring fast load times and a seamless user experience on both web and mobile.

### Plura | *Next.js, Tailwind CSS, Prisma, TypeScript, PostgreSQL* | [\[link\]](#)

November 2024

- Built a scalable SaaS website builder with multi-tenant architecture, enabling seamless onboarding and management of multiple client accounts.
- Crafted a drag-and-drop website and funnel builder with real-time editing, cutting website creation time by 60%.
- Integrated Stripe-powered payments with revenue analytics and custom dashboards, enhancing transaction tracking and financial insights.
- Refined UI/UX with responsive design, accessibility improvements, and light/dark mode, increasing user engagement by 25%.

## Relevant Coursework

---

- Data Structures in Java
- Full Stack Development

## Education

---

### Delhi Skill and Entrepreneurship University

Aug. 2023 – Present

Bachelor of Technology in Computer Science

New Delhi, Delhi
